JIN SHIN DO®

BODYMIND ACUPRESSURE®

Reiki Energy work

“Jin Shin Do®” means “The Way of the Compassionate Spirit.” Jin Shin Do® Bodymind® Acupressure uses gentle yet deep finger pressure on specific acu-points and verbal Body Focusing techniques, to help release “armoring” or chronic tension, balance the “Qi” or energy and improve vitality. This clothes on method helps relieve stress and trauma related problems. A unique synthesis of a traditional Japanese acupressure technique, classic Chinese acu-theory, Taoist philosophy, Qigong (breathing and exercise techniques), Reichian segmental theory and principles of Ericksonian psychotherapy. Jin Shin Do® acupressure was originated by Iona Marsaa Teegarden.

Jin Shin Do® Bodymind Acupressure® is not intended for the diagnosis, treatment or cure of disease. It is a relaxation therapy and a useful adjunct to licensed, qualified medical or psychological care. For any persistent pain or symptom, even a seemingly minor one, the reader is strongly encouraged to consult a medical doctor. When used in conjunction with standard medical treatment, the Jin Shin Do® Acupressure technique can assist the healing process by releasing tension, decreasing stress and encouraging a sense of increased well-being.

REIKI Energy work

Reiki assists in relieving pain, speeds the healing process, creates relaxation & helps balance the person's chakra's and energy system. While laying on of the hands, the practitioner becomes the conductor, creating connection for the energy to channel & come to balance. We are all connected channels. Healing practitioners are tools to guide us to find our own truths.

From a state of openness & relaxation, the person may be able to access the cause or discomfort that is manifesting physically & emotionally. All our answers lie within ourselves. We each find our own way to experience our spiritual nature.

By appointment, Debora's services will be available to a private clientele in their home location & in her studio in Sebastopol, Sonoma County, Ca.
